Gora LLC overview

Gora LLC has a global business, securities, corporate, employment and litigation practice. Having begun operations a couple years ago, we have grown due to excellent relationships with great clients. We want to continue growing with you from our Stamford, New York and Albany offices.

We achieved success because of how successfully we work with our clients. One complaint many people have about lawyers is that they can be disruptive.

Our securities practice draws on experience representing investors in multi-billion dollar deals. For instance, we counseled an investor group to invest in Uber's Series E Preferred Round-valued at \$40 billion.

Our litigation practice considers the pros and cons of the dispute. We've counseled clients litigating in state and federal courts throughout the United States, including, New York, Connecticut, New Jersey, Florida, Texas, Vermont and California. We've litigated high-profile cases, including representing the Chief Financial Officer of Lehman Brothers and prosecuting a case against Google.

Our employment practice counsels you both in and out of court and administrative agencies. We represented a global conglomerate in federal court on age discrimination claims. We've counseled a client to gain a settlement of a sexual discrimination lawsuit. We've advised employees on retaliation claims. Employers have been defended from various claims as well. We consider prophylactic measures to prevent against future employee claims.

Our securities, M&A, corporate and fund practices advise on the Securities Act of 1933, the Exchange Act of 1934, the Investment Adviser Act of 1940 and the Investment Companies Act of 1940. We've formed funds. We've sold assets and equity. We've worked on deals of all sizes.[/vc_column_text][vc_column_text css=".vc_custom_1486413321183{margin-bottom: 34px !important;}"]

Gora LLC continues to grow every day thanks to the confidence our clients have in us. We cover many industries such as financial, energy, business services,

consumer products, technology and manufacturing.
